# ADDED VALUE THROUGH EXPERTISE AND SERVICE

IBZ Industrie AG is one of the leading Swiss solution providers in the fields of bonding, grinding and worker protection. As a technically experienced and reliable partner, we support our customers from industry and commerce, particularly from the areas of mechanical engineering, metalworking, electrical engineering as well as the automotive and watchmaking industries. Our products and services enable efficient and cost-effective bonding and grinding processes. We help protect people at work better with our comprehensive range of worker protection products.

**Roger Fehlmann**  
Managing Director

**CUSTOMER PROXIMITY:** We work closely with our customers to find the best technological and commercial solutions for a wide range of needs and applications. Our dedicated customer advisors are here for you throughout Switzerland.

**CREATING ADDED VALUE:** As the Swiss market leader, IBZ offers you unique consulting and training services along with an extensive range of products from all well-known manufacturers. We also manufacture adhesive tapes and other materials in-house precisely to your specifications in our machine park. In this way, we create real added value.

**LIVING CULTURE:** IBZ Industrie AG combines innovation and vigour with the traditions and values of a Swiss SME. We accordingly place great emphasis on fairness and loyalty vis-à-vis our business partners and employees. IBZ strives to provide you with robust competitive advantages. Challenge us.

## BONDING

# ADHESIVE SOLUTIONS THAT STICK

Bonding offers many advantages. It is no wonder that it is also called “the joining technology of the 21st century”. In fact, different materials with different properties are more frequently being bonded to save weight in many industries. Its close contact with manufacturers places IBZ at the cutting edge of technological development, enabling us to support you comprehensively and manufacturer-independently in choosing the optimal bonding process.

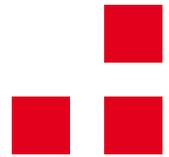

### ADHESIVE MATERIALS FOR EVERY APPLICATION – EVEN CUSTOM-MADE

IBZ offers you hundreds of types of adhesive materials in various widths, lengths and colours, single-sided or double-sided tapes or as die-cut parts in various shapes and sizes.

### HOOK AND LOOP SYSTEMS – THE PRACTICAL BONDING METHOD

If your product requires frequent and effortless opening and closing, hook and loop systems are your ideal choice. At IBZ you will find a large assortment of hook and loop systems, which we can also customise on request.

Professionals from various industries rely on branded products distributed by IBZ.

### **ADHESIVES AND SEALANTS FROM WELL-KNOWN BRANDS**

IBZ supplies adhesives and sealants from its own warehouse for every conceivable application. No matter what technical requirements you have, our application specialists will find the right adhesive or sealant for your application.

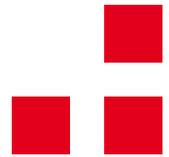

## GRINDING

# THE FINISHING TOUCH FOR YOUR PRODUCTS

New production technologies and the trend towards an ever finer surface finish present new challenges to companies in the grinding sector. As a long-standing grinding specialist and distributor of market-leading abrasives, IBZ helps you to find the best grinding process for your requirements. Benefit from our

extensive experience with state-of-the-art grinding systems and methods to improve quality, shorten machining times and reduce manufacturing costs.

The demands placed on ground surfaces are rapidly increasing. Our customer advisors will help you find the perfect abrasive for your application.

### **CUSTOM-MADE ABRASIVE BELTS AND ABRASIVES**

IBZ supplies you with abrasives from all well-known brands. We carry most of our products in stock. We can also further process custom-made abrasive belts for you quickly and cost-effectively in various lengths, widths and

grit sizes, and punch abrasives exactly according to your specifications and needs: whether square, round, with holes, non-adhesive or self-adhesive – there are many possibilities.

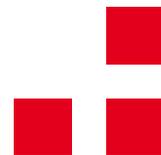

Appreciation for one's employees shows itself in how well one protects them.

## WORKER PROTECTION

# OPTIMAL PROTECTION PAYS OFF

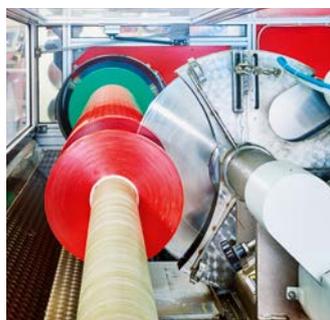

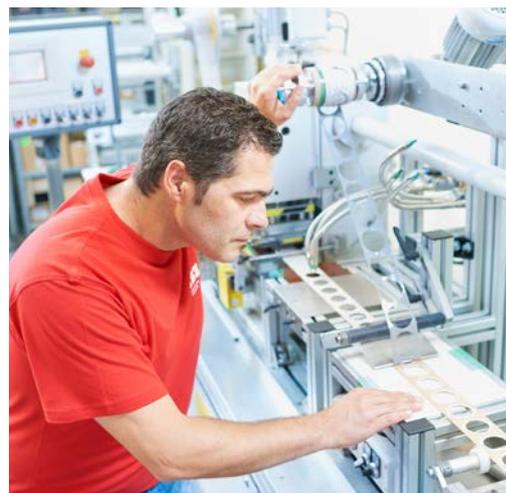

IBZ is a major supplier of respiratory masks, protective goggles, head and ear protection products, protective suits and gloves. Our products are characterised by maximum safety, great comfort, easy usage and modern design. They comply with current

safety standards and norms. As a long-standing specialist in the field of worker protection, we help you choose the right protection products for your specific working environment.

## MACHINE PARK

# A HIGH PERFORMANCE INFRASTRUCTURE

**Some customer requirements cannot be met with standard products – whether they pertain to bonding or grinding. Customised products are required in such cases.**

IBZ operates a modern machine park for the production of customised adhesive elements. There are virtually no limits to the sizes and shapes we can produce, and we do not shy away from even the smallest parts, such as those used in the watchmaking industry. We produce quickly and cost-efficiently, from prototype parts to large series.

Whether you need special abrasives or hook and loop systems, we are at your side with useful advice and support. We manufacture custom-made abrasive belts and punch abrasives in all conceivable shapes and dimensions.

## SERVICES

# WE GO THE EXTRA MILE FOR YOU

**LARGE WAREHOUSE:** The IBZ warehouse contains over 5,000 products, offering you a wide selection and short delivery times.

**SHOWROOM:** We will be happy to show you the products you prefer in our showroom.

**ADHESIVES TRAINING:** We professionally offer you advice and training.

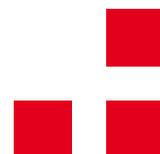

**PROTOTYPING, PRODUCT AND LABORATORY TESTING:** On the basis of a needs analysis, we evaluate adhesive products and application aids and conduct tests.

**E-SHOP:** The user-friendly shop includes more than 2,500 products. It augments the conventional sales channels and is constantly being expanded.

**QUALITY MANAGEMENT:** All processes at IBZ are certified according to ISO 9001 and EN 9120 and are continuously checked and optimised.

**Dedicated and experienced employees, comprehensive services, customised products and efficient warehouse and distribution logistics – a partnership with IBZ pays off!**

## IBZ TRADEMARKS

# DIRECT LINE TO LEADING MANUFACTURERS

IBZ offers a complete range of high-quality-branded products in the fields of bonding, grinding and worker protection, one that is unique in Switzerland. We maintain long-standing partnerships with the manufacturers listed here, among others. These partnerships give us early access to new market trends and products.
